

Thanks for purchasing Joseph Hollo's **Delight** bank for Spectrasonics Omnisphere 2,

You can also check similar soundbanks by Joseph Hollo for other instruments:

# DELIGHT

When Omnisphere 2 was released our main interest was to explore the new, thoughtfully composed wavetables within the synth's engine. Joseph's spent months creating this great soundset and we are truly excited to present you the results of his glorious work.

It became literally huge, contains **145 unique patches!**

A real delight for lovers of lyrical, ethereal, mystical, emotional, evolving, soft, airy and transparent pads, strings and voxes.

You can find thick, dramatic and warm analogue synths, basses, leads, plucks.

There are playful and magical keys, arpeggios and BPM synchronized pads, plus a handful of useful drums, transitions and soundscapes.

**Omnisphere Delight** provides a lots of inspiration for composers interested in various styles from ambient, film, cinematic underscore, pop/rock to the most up to date electronica.

Perfect for live playing keyboardist and worship musicians.

The expression of the patches are highly optimized through midi controllers such as Velocity (*vel*), Aftertouch (*At*), PitchBend (*Pb*), Breath (*Breath-CC02*), and Modwheel (*Mw*).

Please read the patch notes for controller information and tips. See detailed patch lists!

5 pieces of Cubase .cpr and Midi files of the demos are helping understand some suggested use of the patches!

## **System requirements:**

- Native Instruments Omnisphere 2.2 or higher
- host program (DAW) with VST or AU, RTAS support
- WINDOWS or OSX operating system

### Install notes:

- Unzip our file  
Press the ➤*Utility* button inside the Omnisphere 2 plug-in, select ➤*Install.omnisphere* from the menu then locate the previously unzipped file named: ➤*Hollo Delight.omnisphere* and load it.  
All the patches will be imported into their proper locations.  
Omnisphere will automatically open the new folder, so you can immediately play our new presets.
