

Thanks for purchasing Joseph Hollo's **Delight 2 SCENES** bank for Omnisphere 2

You can also check similar soundbanks by Joseph Hollo for other instruments:

DELIGHT 2 SCENES

After the warmly welcomed first Delight for Omnisphere the second volume has arrived.

Delight2 got the subtitle "**Scenes**" because it gives you carefully chosen tools, enables you to paint colors, situations, moods for film scenes with just a few targeted paint strokes.

"Scenes" also means Stages: live synthesizer performances where you can choose Pad for the mood and rhythmical parts - like Percussions, Arps or Sequences for a background that carries the show.

Alive floating backgrounds, which are sparse, but keep up the interest by slow tonal changes and shifts.

So you are ready to play the Lead on the top and deliver a wonderful complex soundstage for your audience.

Inspired by records and live concerts from John Williams, Michael Stearns, Robert Rich, Steve Roach or Nils Frahm. All of them are using different musical tricks and techniques which I was able to transform into Scenes and now it's your turn to explore these and use in your tracks.

There are 16 (+1) Multis beside 120 Patches, 12 Cubase cpr and Midi files to show you examples how to use these ideas.

Please read the patch notes for controller information and tips.

System requirements:

- Spectrasonics Omnisphere 2.4 and above
- host program (DAW) with VST or AU, RTAS support
- WINDOWS or OSX operating system

Install notes:

- Unzip our file
Press the >Utility button inside the Omnisphere 2 plug-in, select >Install.omnisphere from the menu then locate the previously unzipped file named: >Hollo Delight2 Scenes.omnisphere and load it.
All the patches will be imported into their proper locations.
Omnisphere will automatically open the new folder, so you can immediately play our new presets.

Shop, contact and support:
